

Project Initialization and Planning Phase

Date	28 June 2026
Team ID	
Project Name	A Comprehensive Measure
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A researcher analyzing global development	Identify countries with Very High HDI	It is difficult to accurately determine the overall HDI level	HDI depends on life expectancy, education, and income together	Confident to recognize highly developed countries

PS-2	A policymaker working for a developing nation	Identify development gaps and improvement areas	Limited resources make it difficult to prioritize investments	Healthcare, education, and income levels vary significantly	Motivated to create effective development policies
PS-3	A government or development organization	Identify countries requiring urgent development support	Lack of accurate assessment leads to ineffective planning	Low life expectancy, poor education, and low income reduce HDI	Responsible for implementing impactful development programs
